Declaration of Compliance

16.06.2026

for articles made of plastic and metal intended to come into contact with food

Hereby we confirm that our product

Item name: WMF WATER CARBONATOR ELEMENT
Item No.: 3201114383 / CMMF No.:
WMF article No.: 0608136040

complies with the legal regulations laid down in the German Commodity Ordinance (or the respective stipulations laid down in the European Regulations on Plastic materials) as well as Regulation (EU) No 10/2011, the Regulation (EC) No 1935/2004, in particular Article 3, 11 (5), 15 and 17, the Regulation (EU) 2024/3190 and the Regulation (EC) No 2023/2006, in their relevant versions.

Description (material/optics)/ analogue items :

Water carbonater consists of a housing coated (anthracite) and a nozzle made of Cromargan stainless steel and acrylonitrile butadiene styrene (ABS), drinking bottle consists of bottle made of polyethylene terephthalate (PET) and a lid made of polypropylene (PP), sealing made of silcone and covers made of Cromargan stainless steel.

When used as specified, the overall migration as well as the specific migration do not exceed the legal limits; the transition of metal ions does not exceed the SRLs (Specific Release Limits) according to Council of Europe Resolution CM/Res (2020)9 on the safety and quality of materials and articles for contact with food (Status: 2020).
The tests are performed according to articles 17 and 18 of Regulation (EU) No 10/2011 in conjunction with Annex III and V resp. according to the "Technical guide on metals and alloys used in food contact materials and articles", 2nd edition (2024).

The materials and raw materials used comply with the German Commodity Ordinance (or the respective stipulations laid down in European Regulations on Plastic materials) as well as the Regulation (EC) No 1935/2004 and the Regulation (EU) No 10/2011, respectively according to the latest version. In the context of the quality assurance measures there was not found any indication of an incorrect utilization of substances evaluated.

The following substances, subject to limitations and/or specification are used in the above mentioned product:

name of substance/ CAS-No. (limitation): material:

Specification of the intended use or limitations:

- Type(s) of food intended to come into contact with the material:

water

- Intended duration and temperature of treatment and storage while in contact with the food:

any long-term storage at room temperature

- Ratio of the area of the food contact surface to the volume used to determine the compliance of the food contact material or article:

  PET: 300ml/1.77dm²; PP: 312ml/1.87dm² for the plastic piece

  Cromargan Tube: 92ml/0.55dm² for the metal piece

The following dual-use-additives are enclosed:

none

The following bisphenols were used in the manufacture of the food contact material:

none

There is no functional barrier used in the plastic material.

This declaration is valid for the product delivered by us as specified above. Under consideration of the food contact conditions stated, the product complies with the stipulations of these Directives regarding the specified foods. The user shall verify himself that the product is suitable for the intended food beyond the stipulations of the Directives.

The validity of the declaration is ending if the requirements are changed.

This document was created electronically and is valid without signature.
