

Lire attentivement le mode d'emploi
afin que les consignes de sécurité avant toute utilisation.

CONSEILS DE SÉCURITÉ

• Pour votre sécurité, cet appareil est conforme aux normes et réglementations applicables (Directives Basses Tension, Compatibilité Electromagnétique, Environnement...).

• Les accessoires de l'appareil devraient être changeés avec précaution d'utilisation. Evitez le contact avec la peau, les cheveux ou les vêtements.

• Vérifiez que la tension de votre installation électrique correspond à celle de votre appareil. Toute erreur de branchement peut causer des dommages irréversibles non couverts par la garantie.

• Pour une protection supplémentaire, l'installation d'un dispositif à courant résiduel (RCD) ayant un courant de fonctionnement résiduel nominal n'existant pas 30 mA est conseillée dans le circuit électrique alimentant la salle de bain. Demandez conseil à l'installateur.

• Risque de brûlure. Garder l'appareil hors de portée des jeunes enfants, en particulier pendant l'utilisation et le refroidissement.

• Lorsque l'appareil est connecté, ne le laissez jamais sans surveillance.

• Placez toujours l'appareil avec le support, le cas échéant, sur une surface plane, stable et résistante à l'eau.

• L'installation de l'appareil et son utilisation doit toujours être conforme aux normes en vigueur dans votre pays.

• ATTENTION : ne pas utiliser cet appareil près des baignoires, douches, lavabos ou autres récipients contenant de l'eau.

• Lorsque l'appareil est utilisé dans une salle de bain, débranchez-le après usage, car la proximité de l'eau représente un danger, même lorsque l'appareil est étanche.

• Cet appareil n'est pas prévu pour être utilisé par des personnes (compris les enfants) dont les capacités physiques, sensorielles ou mentales sont réduites, ou par des personnes d'expérience ou de connaissance, sauf si elles sont prises en charge, par l'intervention d'une personne responsable de leur sécurité, d'une surveillance ou d'instructions spéciales concernant l'utilisation de l'appareil.

• ATTENTION : ne pas utiliser cet appareil près des baignoires, douches, lavabos ou autres récipients contenant de l'eau.

• Si l'appareil est utilisé dans une salle de bain, débranchez-le après usage, car la proximité de l'eau représente un danger, même lorsque l'appareil est étanche.

• Cet appareil peut être utilisé par des enfants âgés de 8 ans et plus et des personnes ayant des capacités physiques, sensorielles ou mentales réduites ou un manque d'expérience et de connaissances, s'ils ont reçu un encadrement ou des instructions concernant l'utilisation de l'appareil en toute sécurité et comprennent les risques encourus. Les enfants ne doivent pas jouer avec l'appareil. Les enfants ne doivent pas nettoyer l'appareil ni s'occuper de son entretien sans surveillance. Il convient de surveiller les enfants pour s'assurer qu'ils ne jouent pas avec l'appareil.

• Si le câble d'alimentation est endommagé, il doit être remplacé par le fabricant, son service après vente ou des personnes de qualification similaire afin d'éviter un danger.

• N'utilisez pas votre appareil et contactez un Centre Service Agréé si votre appareil est tombé, s'il ne fonctionne pas normalement.

• L'appareil doit être mis à la disposition d'un système de sécurité thermique. En cas de surchauffe (par exemple à l'encrassement de la grille arrière), l'appareil s'arrête automatiquement et se réactive lorsque la température revient à la normale.

• L'appareil doit être débranché : avant le nettoyage et l'entretien, en cas d'anomalie de fonctionnement, des erreurs ou de tout autre problème.

• Ne pas immerger ou poser l'appareil dans l'eau.

• Ne pas tenir par le bouton qui est cassé, mais par la poignée.

• Ne pas débrancher ou tirer sur le cordon.

• Ne pas nettoyer avec des produits abrasifs ou corrosifs.

• Ne pas utiliser par température inférieure à 0 °C et supérieure à 35 °C.

GARANTIE

Votre appareil est destiné à un usage domestique seulement. Il ne peut être utilisé à des fins professionnelles. Les garanties délivrées ne sont valables en cas d'utilisation incorrecte.

PARTICIPOSE À LA PROTECTION DE L'ENVIRONNEMENT!

(*) Votre appareil contient de nombreux matériaux valorisables ou recyclables.

Confiez celui-ci dans un point de collecte ou à déposer dans un centre service agréé pour que son traitement soit effectué.

Read the instructions carefully as well as the safety guidelines before use.

Safety

• For your safety, this appliance complies with the applicable standards and regulations (low Voltage Directive, Electromagnetic Compatibility, Environmental...).

• The appliance's accessories must be used during use. Avoid contact with the skin. Make sure that the power cord does not come into contact with the hot parts of the appliance.

• Check that the voltage of your electricity supply matches the voltage of your appliance. Any error when connecting the appliance can cause irreparable harm not covered by the guarantee.

• For additional protection, the installation of a residual current device (RCD) having a rated residual operating current not exceeding 30 mA is advisable in the electrical circuit supplying the bathroom. Ask for installer for advice.

• Bain kapatlısağlığı. Bain kapatlısağlığı, banyo havuzundan, duşlarda, banyo盆や他の水槽で使用する場合は、必ず水栓を閉じてください。

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.
