**1. GENERAL DESCRIPTION**

- A. Tongue
- B. 6 position LED display
- C. +/- button to decrease/increase temperature
- D. ON/OFF switch
- E. Shaver plate
- F. Rotating power cord outlet
- G. Power supply cord
- H. Lock System (to lock and unlock the tongs)
- I. Evaporation system

**2. SAFETY INSTRUCTIONS**

**For your safety, this appliance complies with the applicable standards and regulations (Low Voltage Directive, Electromagnetic Compatibility, Environmental...).**

- The appliance's accessories become very hot during use. Avoid contact with the hot parts of the appliance.
- Check that the voltage of your electricity supply matches the voltage of your appliance. Any error when connecting the appliance can cause irreparable harm, not covered by the guarantee.

**For additional protection, the installation of a residual current device (RCD) having a rated residual operating current not exceeding 30 mA is advisable in the electrical circuit supplying the bathroom. Ask for installer for advice.**

The installation of the appliance and its use must however comply with the standards in force in your country.

**WARNING: do not use this appliance near bathtubs, showers, basins or other vessels containing water.**

**When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off.**

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.

**This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.**

If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

Stop using your appliance and contact an Authorised Service Centre if:

- the appliance does not plug in correctly.

The appliance is equipped with a heat-sensitive safety device. In the event of overheating (for example if the rear grill is blocked), the dryer will stop automatically: contact the After-Sales Service.

The appliance may be unplugged:

- before cleaning and maintenance procedures.

- if it is not working correctly.

- if you let the room cool down automatically.

- Do not immerse or put under running water, even for cleaning purposes.

- Do not hold the appliance by the handle, which is hot, but by the handle.

- Do not use an electrical extension lead.

- Do not clean with abrasive or corrosive products.

- Do not use at temperatures below 0°C and above 35°C.

**GUARANTEE:**

Your appliance is designed for use in the home only. It should not be used for professional purposes. The guarantee becomes null and void in the case of improper usage.

**3. BRINGING INTO SERVICE**

- Lock System (Fig1): To open the clamps, pull the Lock System back.

To lock the clamps: close the clamps and push the "Lock System" to the front.

Your appliance will heat up very quickly (ready to use in less than 30 seconds) and the temperature will remain stable throughout use.

Plug in the appliance.

Set the ON/OFF switch to position 1.

Select the temperature for your hair using the +/- (fig. 2) buttons: press the + button to reduce the temperature or the - button to increase it. The red light indicates the selected temperature.

After use close the clamps, use the "Lock System", unplug the appliance and leave it to cool down completely before putting it away.

**4. USE**

Use on dry hair:

Hair must be unclipped, clean and dry (or just slightly moistened).

- Do not use the appliance on synthetic hair (wigs, extensions, etc.).

- Form a small lock a few centimetres in width, comb it and place it between the plates.

Hold the hair firmly between the plates and slide the appliance slowly from the roots to the tip of the hair.

If your hair is very thick or curly, you can optimise the result by lightly spraying water onto the strands before smoothing.

The appliance sliding on the plates protects your hair against overheating by uniformly spreading the heat.

Wait for the hair to cool down before styling.

**Use on damp hair:**

WARNING: Do not place your hands over the evaporation holes.

- Make sure the evaporation holes are not in direct contact with the hands, face, head or hair.

- To protect the hair from overheating, towel-dried and combed hair. (fig. 3)

- Form a small lock a few centimetres in width, comb it and place it between the plates.

Protect the evaporation holes towards the outside and not towards the head, face or hair.

- Hold the hair firmly between the plates and slide the appliance slowly from the roots to the tip of the hair.

During operation, do not worry if you hear a slight crackling or if you see steam; it is only the excess water evaporating off your hair.

**HAIRDRESSER'S TIPS**

- Always start by smoothing the locks underneath. Work from the back of the neck first, then going onto the side of the head and finish with the front.

- To make strands along the lengths, work using a smooth and uninterrupted movement.

- To highlight, apply setting lotion before smoothing.

**5. MAINTENANCE**

ATTENTION! Always unplug your appliance and allow it to cool before cleaning it.

To clean the appliance, unplug it and then wipe with a damp cloth and dry with a dry cloth.

**6. ENVIRONMENT PROTECTION FIRST!**

① Your appliance contains valuable materials which can be recovered or recycled.

Leave it at a local civic waste collection point.

**7. TROUBLESHOOTING**

- You're not happy with the results you're getting from your straightener: - Check the straightener firmly against your hair section.

- Slide your straightener more slowly.

- Increase the temperature using the "+" button.

- The LED flashes with no indication:

- There is a fault in the appliance. Please take it to an officially approved service centre.

- The plate isn't static:

- This is quite normal, the straightener is fitted with a mobile plate to get better results from your straightener.
