

Read the instructions carefully as well as the safety guidelines before use.

For your safety, this appliance complies with the applicable standards and regulations (Low Voltage Directive, Electromagnetic Compatibility Directive, Metric Ambiente...).

The appliance's accessories become very hot during use. Avoid contact with the skin. Make sure that the supply cord never comes into contact with the floor or other objects.

Check that the power cord is correctly connected with the plug and the power supply. Any error when connecting the plug may damage the appliance.

Do not use the appliance if the plug or the power cord is damaged. If the plug or the power cord becomes loose or broken, do not use the appliance.

The appliance and its plug must not be exposed to water.

When using the appliance, turn off the tap, close the bath, shower, etc., to prevent water from overflowing.

Water pressure is not intended for use by persons under the age of 8 years and persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or another qualified person in order to avoid a hazard.

Stop using your appliance and contact an Authorized Service Centre if:

- your appliance has failed;

- the plug or the power cord has been damaged;

- the appliance has been dropped or otherwise damaged;

- Do not immerse or put under running water, even for cleaning purposes.

- Do not drop with hard drops.

- Do not use the plug or the power cord while carrying, as hot, but the handle.

- Do not use the plug or the power cord while carrying, as hot, but the handle.

- Do not clean with abrasive or corrosive products.

- Do not use at temperatures below 5°C and above 35°C.

GARANTIE :

Your appliance is designed for use in the home only. It should not be used for professional purposes. The guarantee becomes null and void in the case of improper usage.
